

2ND QUARTER PROJECT METHODS AND MATERIALS

Group member's names: _____ Period: _____

variables: Use the space below to list your variables

Manipulated (independent) variable:

Responding (dependent) variable:

Controlled variables (list all):

Experimental control: (This is an experiment done without the independent variable being tested. It's like a 'baseline' measurement. Some projects may not have an experimental control)

Materials: Complete list of all the materials you will be using to complete your experiment

Methods (procedures): Read the *Lab Report Guidelines* for guidelines about how to write a formal procedure. You may continue the procedures on the back of this page or staple an additional page. Typed is preferable, but not required.
